

FOR IMMEDIATE RELEASE

**AMSAFE AWARDED CONTRACT TO EQUIP TIGER AIRCRAFT WITH
STATE-OF-THE-ART INFLATABLE RESTRAINT SYSTEMS**

*Tiger Aircraft pilot and copilot seats will be equipped with the
AAIR[®] seatbelt air bags as standard equipment.*

MARTINSBURG, WV, April 15, 2005 – Tiger Aircraft Company of Martinsburg, WV, and AmSafe Aviation of Phoenix, AZ, recently signed a new agreement naming AmSafe as the exclusive provider of inflatable restraints in all Tiger Aircraft.

AmSafe Aviation Inflatable Restraints (AAIR[®]) will soon be standard equipment on the Tiger AG-5B single engine general aviation aircraft. Rear seats of these aircraft can also be fitted with the AAIR[®] as an option. Certification and introduction of the AAIR[®] on Tiger Aircraft are anticipated toward the end of the year.

Tiger manufactures top quality aircraft featuring solid bonded honeycomb construction, rivetless aluminum skin, imported leather seats and renowned Garmin avionics. The Tiger AG-5B is the most agile, responsive plane in its class and is known for its incredible speed for its size, excellent fuel efficiency, exhilarating handling characteristics, and excellent safety record.

“AmSafe is pleased to partner with Tiger Aircraft in protecting those who fly with the most significant safety enhancement available to the general aviation flying community,” said AmSafe AAIR[®] general manager, Joe Smith.

AmSafe Aviation, a division of AmSafe, Inc., is the world leader in aviation restraint systems and airbag technology. AmSafe introduced the FAA-certified AmSafe Aviation Inflatable Restraint (AAIR[®]) in 2001. While AmSafe’s traditional restraints remain standard in aircraft of virtually every major airline worldwide and countless private aircraft, they also provide safety for aircraft crews in most airliner types. Tiger Aircraft LLC was formed to revive, enhance, and build one of the most celebrated airplane designs in general aviation history—the Tiger. Tiger Aircraft is dedicated to upholding the Tiger tradition: providing the most exhilarating, agile, and dependable fixed-gear planes available in general aviation. Today’s Tigers are built in a new manufacturing facility in Martinsburg, WV, constructed especially to build the planes.
