

N. Gene Criss Promoted to President of Tiger Aircraft

Tiger Aircraft LLC announced that N. Gene Criss has been named President of Tiger Aircraft. Mr. Criss will also retain his current position as Chief Operating Officer. He assumes the duties of President from Bob Crowley who remains as the company's Chairman and Chief Executive Officer.

According to Mr. Crowley, "Gene is a talented, experienced, and skilled leader in both aviation and in business. He will be responsible for the company's day-to-day operations as we ramp up production in our new manufacturing facility in Martinsburg, West Virginia to meet growing demand for the new Tiger."

Mr. Criss was formerly President and CEO of Commander Aircraft Corporation; VP/COO, Micco Aircraft Company; and Vice Chairman, Aviation General, Inc. He has held several senior management positions with Piper Aircraft Company, American General Aircraft Company, and Questair, Inc.

His professional career encompasses over thirty years of general aviation experience including engineering, program management, materials management, and operations management positions. Mr. Criss directed Type Certification of over 20 aircraft models and successfully directed start-up of several aircraft companies including the attainment of Production Certificates.

Tiger Aircraft LLC was formed to revive, enhance, and build one of the most celebrated airplane designs in general aviation history—the Tiger. Today's Tigers are built in a new facility in Martinsburg, WV constructed specially to build the planes. Tiger Aircraft is dedicated to upholding the Tiger tradition: the most exhilarating, agile, and dependable fixed-gear planes available in general aviation.
