

News Release

Tiger Aircraft Signs Up as BE A PILOT Sponsor

Tiger Aircraft LLC and BE A PILOT announced that the manufacturer has made a member-level contribution to the general aviation promotional organization. The announcement was made by BE A PILOT President Drew Steketee at EAA AirVenture 2003 in Oshkosk, WI.

BE A PILOT is the principle general aviation industry organization dedicated to expanding the GA population through education and promotion. Through advertising, television commercials, its website, and low-cost introductory flight lessons, BE A PILOT encourages individuals to experience general aviation for the first time and has motivated tens of thousands to take an introductory flying lesson.

According to Bob Crowley, Chairman and CEO of Tiger Aircraft, "BE A PILOT works for the entire GA industry to generate interest in flying. They are the premier organization for bringing a new generation of Americans into the family of pilots. Tiger Aircraft is proud to support BE A PILOT's critical work."

Tiger Aircraft LLC was formed to revive, enhance, and build one of the most celebrated airplane designs in general aviation history—the Tiger. Today's Tigers are built in a new facility in Martinsburg, WV constructed specially to build the planes. Tiger Aircraft is dedicated to upholding the Tiger tradition: the most exhilarating, agile, and dependable fixed-gear planes available in general aviation.
